God Give Us Men.
The Advertiser has been requested to publish the poem below written by Dr. Josiah Gilbert Holland, entitled "God Give Us Men";
God give us men. The time demands Strong minds, great hearts, true faith and willing hands;
Men whom the lust of office does not kill;
Men whom the spoils of office cannot buy;
Men who possess opinions and a will; Men who have honor; men who will not lie;
Men who can stand before a demagogue And dam his treacherous flatteries without winking;
Tall men, sun-crowned, who live above the fog
In public duty and in private thinking;
For while the rabble with their thumb-worn creeds,
Their large professions and their little deeds,
Mingle in selfish strife; lo! Freedom weeps!
Wrong rules the land, and waiting justice sleeps!

The Negro Question.
Editor The Laurens Advertiser:
Please allow me space to say a few words in regard to the negro question that has been talked about so much here lately.
I believe that the time is not very long off when the negro will have to be put in a place by himself by force of some kind, if there is not some law made that will give the poor white man a better chance than he has now. You can take the majority of landowners and they had rather have a negro to work for them than a white man, for the reason that a negro will work for less and steal a whole lot that they don't work for and if the man he is working for catches him stealing he won't bother him because he is working for him and about half the negroes are selling whiskey if not for themselves, for some white man who he knows will pay his fine if he gets caught. I know this to be so for I heard a negro say not more than a week ago that his "Cap'n" told him to go his route and sell all the liquor that he wanted, if he got caught up with he would pay his fine. This negro was selling whiskey then for I saw him selling it. Some will ask why I didn't report him. Well that is not my business. We have officers for that job and if they don't attend to their duty and catch them I am not going to do it, for by so doing I wouldn't make anything by it but enemies.
I don't believe there's a white man living that thinks a negro is his equal, so why not put him to himself where he can make his own laws and have

his own way in general. It would be better for the white man, both rich and poor, if he was to himself, for it would give the average poor ambitious white man a chance to buy and pay for a farm of his own and the man that owns more than his allotted share of land could sell what he didn't need and be in better circumstances than he is now fooling with negro help, for what I can see and learn about them the most of them come out in debt. Not only the negro comes out in debt but also the white man that has to rent because he has to pay such a high rent for his farm in competition with negro renters.
You can take the labor around most of the towns and cities and you will find negroes holding some good job that many a poor white man would have if it wasn't for the negro. Of course some of them is what is called regular "nigger jobs", but if there wasn't any negro to fill the place it wouldn't be any trouble to get a white man to fill it. So I say let everybody welcome Chief Sam from Africa to S. C., to get as many shiploads as he can to take to the land of milk and honey, never to return.
Yours truly,
H. E. Madden.
